Assembly Instructions

Tools Required: 9/16" or Adjustable Wrench

1. Remove the Drawers (E) from the Case (A). To remove the drawers, pull up on the left side of the Drawer Release Lever while pushing down on the right Drawer Release Lever. See Figure 1a. Note where each drawer came from to ensure correct installation.

2. Turn the unit upside down on a clean, protected surface. Place the Left Front/Right Back Leg (Ca) and the Right Front/Left Back Leg (Da) at one end of the Case, making sure the drilled corners of the legs face toward the Corner Blocks. It is important the side of the leg exposing the wheel face each other. Insert two 3/8" x 2-1/2" Hex Bolts (R) with two Flat Washers (Q) through the Corner Blocks and into the leg and fasten securely. See Figures 2 and 2a. Repeat for the other three legs.

Assembly Instructions

3. Firmly hold the lift top closed and turn the table upright then reinsert the drawers. See Figure 3.

Fig. 3

4. The wheels allow the table to easily move away from or toward your seating.
